

5-5-5 MINI FACE-LIFT PROGRAM*

Many of us reach a point in our lives where age sets in and we have a hard time accepting how our body is changing. Some common issues include more wrinkles, especially expression lines, a double chin, a weakened jaw line, and facial features that begin to sag.

While medical treatments are an option for looking younger, Harmonia provides another alternative which helps the body rejuvenate itself through natural, non-invasive techniques. This Series is comprised of three specific treatments, each of which is intended to be received once a week for five weeks. These therapies, in combination with a good home care routine, work perfectly together to combat the effects of time.

The results you can expect include less lines with less depth, a more sculpted and full face with a more defined jaw line, lifted cheeks and tighter skin. Your neck will be tighter and slimmer under the chin. Your eyes will look more open and refreshed.

The 5-5-5 Series has four different levels of commitment. The deeper your commitment, the better your results will be and the more you'll save off the cost of purchasing the treatments and home care products on their own.

Depending on your age, the 5-5-5 Series can be used as a preventative measure (for ages 40+) or for corrective purposes if you're experiencing some of the signs of aging that are mentioned above.

BASIC PROGRAM

- 1 – Naturae Certified Organic Toning Lotion

*All treatments in The 5-5-5 Series must be used by the same person. When receiving the services, each of the three (3) professional treatments must be received consecutively on the same day, otherwise additional fees will apply. Program must be paid in full before receiving the first treatment.

For best results, treatments should be received once a week but if necessary, the program can be spread out over the course of eight (8) weeks, from the date the first set of treatments is received.

If all treatments are not used within this eight-week period, the remaining value of the package can only be redeemed for its monetary amount. In this instance, for each treatment that's already been received, the difference between its package cost and its regular price will be deducted from the remaining balance of the program.

We strongly suggest that the recommended home care products are used during the program as they enhance and complement the results of the professional treatments.

Please make appointments well in advance so that we can best accommodate you.
